

COVID-19 POPULATION RESPONSE PROGRAM

We are in unprecedented times with the COVID-19 Pandemic. The virus has caused confusion, financial chaos and impacted nearly every part of our everyday lives. People are further challenged by their own healthcare needs. TruSight Health is answering the call by offering a coordinated response program to meet the growing need for resources and access to answers and healthcare services.

The program offers an integrated package of TruSight Health's tools and services including its mobile app communication platform, **TruuSCREEN** electronic patient screening, **TruuCARE telehealth** and care navigation services, along with a coordinated referral process to quality provider locations and testing sites. TruSight Health has also partnered with **TDX Management** to monitor the ever-changing status of COVID-19 testing kits and supplies to assist members accessing needed services.

TruSight Health remains dedicated to our mission of helping members access needed care. We don't look past the escalating Mental Health and Substance Use problems during this time of uncertainty. The impact to health care spend due to these issues will be even greater than it was before.

THE PROCESS
